Date and Duration	02, March 2024 (Saturday) (02:00 PM) E5 Seminar Hall
Department	II Year Students
Co-ordinators	Dr. Sakthivel T., AP (Sl. Gr.)/CE Ms. Susithra AP (Sn. Gr)/ECE
Chief Guest	<b>Dr. Suresh Kumar G.S.</b> Senior Project Associate at CSIR- National Institute for Interdisciplinary Science and Technology, Thiruvananthapuram
No. of Participants	52

1. Dr. Sakthivel T. extended a warm welcome to both the students and the esteemed chief guest, Dr. Suresh Kumar, Senior Project Associate at CSIR- National Institute for Interdisciplinary Science and Technology, for the celebration of National Science Day on March 2, 2024 (Saturday).
2. Dr. Suresh Kumar in his speech detailed about the investing in indigenous development, countries can tailor these solutions to their specific needs, enhance national security, protect consumers from counterfeit products, and stimulate innovation and economic growth within the domestic anti-counterfeiting industry. Also he emphasized that the Indigenous development ensures that a nation has control over its own anti-counterfeiting solutions, reducing dependency on foreign technologies and safeguarding against potential vulnerabilities in imported systems. Smart materials and technologies offer advanced features such as unique identifiers, tamper-evident features, and real-time tracking capabilities, making them highly effective in combating counterfeiting.
3. Ms. Susithra AP (Sn. Gr)/ECE thanked the chief guest and Dr. Maruthamuthu HoD i/c of Physics felicitated the guest with a memento and the program comes to a formal end.
